

**Personalizações
para a CAPA**

STAMPING

Um acabamento em que consiste na pressão de um timbre quente contra o revestimento, é a personalização indicada para destacar pequenos detalhes e dar um efeito de sofisticação ao produto.

Podes optar pelo stamping incolor ou escolher entre várias cores disponíveis. Além disso, há a possibilidade de utilizar diferentes tipografias, bem como de optar por textos em maiúsculas e/ou minúsculas, para um toque ainda mais exclusivo.

IMPRESSÃO UV

A impressão UV utiliza um sistema de luz ultravioleta que permite à tinta especial secar de forma ultra-rápida. Este processo garante cores brilhantes e intensas ou, em alternativa, personalizações monocromáticas mais discretas, sempre com alta qualidade e durabilidade. Além de oferecer versatilidade na escolha, a impressão UV é também uma solução sustentável, já que não recorre a solventes na transferência da tinta para o substrato. Ideal para imprimir os teus álbuns de forma ecológica, resistente e com qualidade de excelência.

Consulta a página de compatibilidades no catálogo para mais detalhes.

GRAVAÇÃO laser

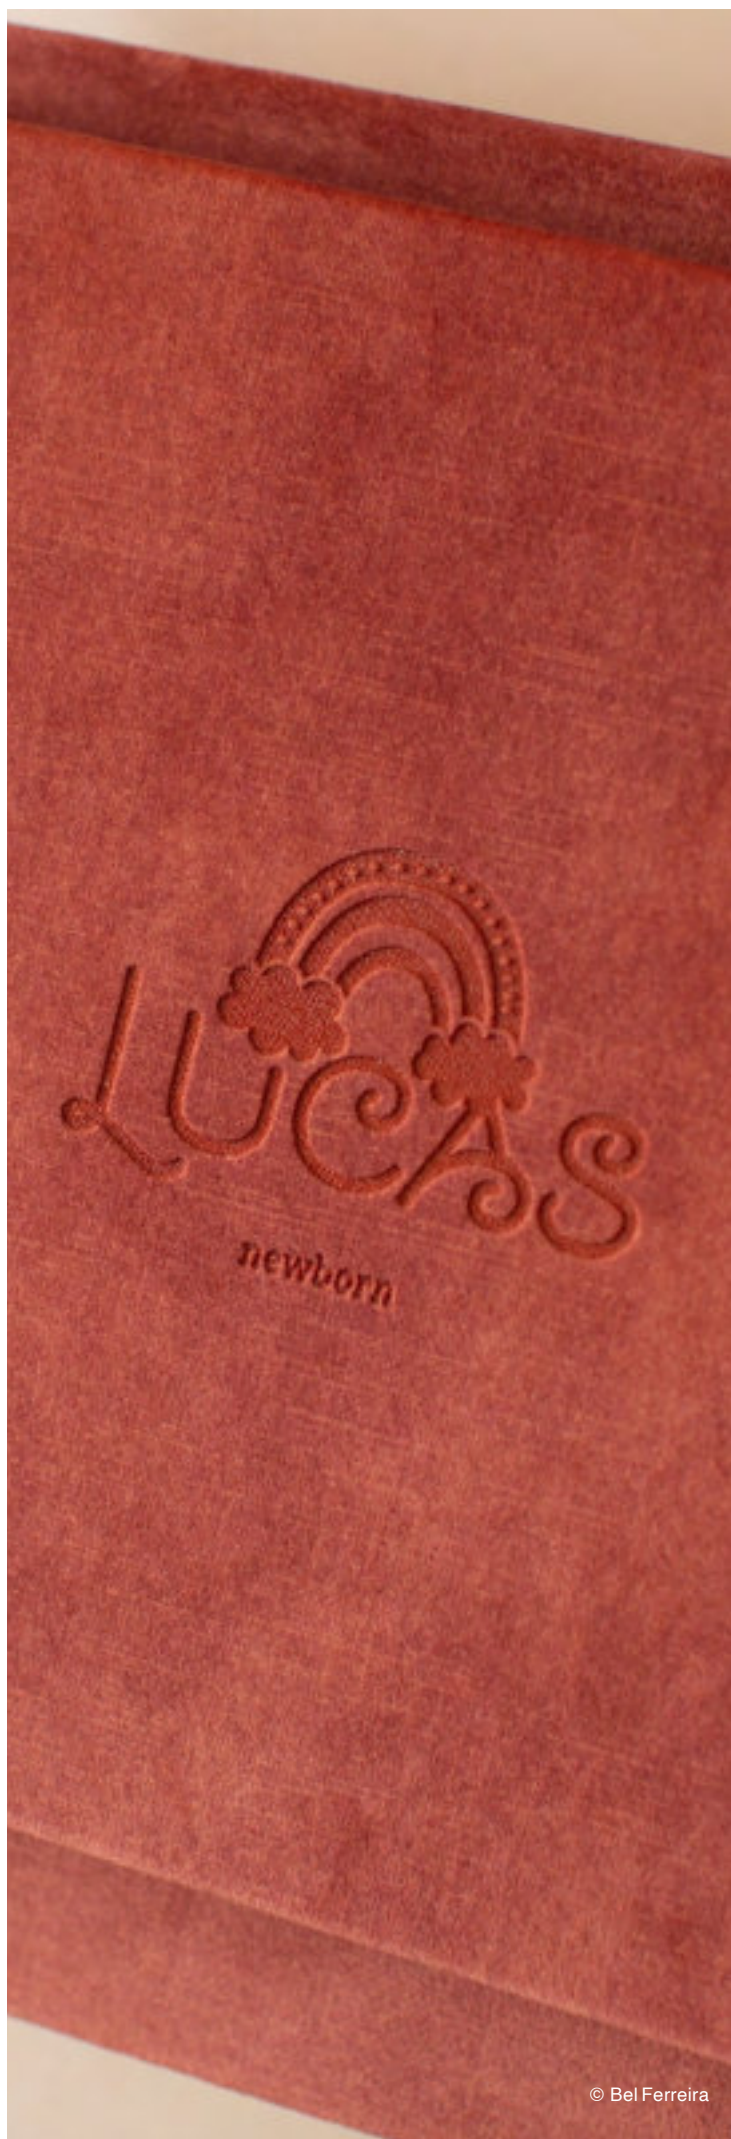

A gravação a laser é a melhor forma de tornar um produto único.

Através de um processo no qual a superfície do material é queimada, criando um desenho permanente, o álbum do teu cliente será verdadeiramente singular.

Escolhe entre a ilimitada variedade de personalizações que temos ao teu dispor.

A gravação em baixo relevo a laser vaporiza o material em altas temperaturas.

A profundidade da gravação é feita a partir da variação de potência e velocidade do equipamento.
